Disposable burners

3 YEARS GUARANTEE

- Light Duty Cautery Transformer
- Variable output up to 20 ampere
- Non-slip adjustable feet
- Connectors with safety terminals for banana plugs
- Complete with either standard or pistol grip handle with push button control and cable
- Supplied with set of five, non-corroding, non-oxidising, Platinum Iridum, 50mm burners: coagulation ball, ring cutter, straight cutter, loop and cold-point
- Alternative 50mm burners available (see chart)
- Burners are autoclavable

Rechargeable Cautery Set

elemental

510 Heavy duty coagulation ball | 507 Heavy duty straight cutter | 509 Heavy duty ring cutter | 508 Straight cutter | 504 Needle/ cord point

- Elemental Cautery system with rechargeable power supply
- Exceptionally compact 'foot-print' on desk charger, ideal for surfaces where space is at a premium
- Hygienic design - no awkward or difficult to clean areas
- Simple to use - just plug-in, recharge and use
- Intelligent charging system with NIMH rechargeable battery
- Fully charged from empty in 3 hrs
- 10 to 15 minutes continual operation from a full charge
- Twin lamp charging indicators
- Slim handle with exact-touch control, highly accurate and well balanced in use
- Fully autoclavable handle and tips (excluding battery)
- 3 Burner Set CAU08402: Ring Cutter, Straight Cutter & Coag Ball

Schuco 120W

Schuco 120W electrosurgical unit for minimally invasive surgical procedures – ideal for the treatment of a variety of skin conditions.

This unit will give you the flexibility of cut, coagulation as well as a combined cut and coagulation setting.

Ideal for the treatment of a variety of skin conditions and monir ops.

Cut Mode
Cuts tissue to any depth better then a scalpel, with no dragging or snagging.
Blend Mode
Cuts and coagulates at the same time to provide a clear haemostatic field for the surgeon.
Forced Coagulation Mode
Create superficial coagulation for surface indication.
Soft Coagulation
Gives the capacity to coagulate deeper through the tissues and to coagulate without carbonisation.
Bipolar Coagulation
(with adaptor) capable of handling all standard bipolar applications from large vessel cautery to small tissue resection.

- Pure cut, CUT
- Coagulated cut, BLEND
- Superficial coagulation, COAG FORCED
- Deep coagulation (without carbonisation), COAG SOFT
- Bipolar coagulation, BIPOLAR (with adaptor)

The Schuco 120 comes complete with the following re-usable accessories:

- **2 single use bi-polar forceps, with adapter**
- Cable for neutral plate disposable/5365
- Assorted electrodes 5cm pack of 10
- User manual
- Footswitch
- Power lead 2m
- Reusable handle with finger switches
- Steel neutral electrodes size 120 x 160mm
- **A range of single use consumables is also available - see Single Use Consumables for Schuco 120W on this page**

CAU200		£1826.962

Consumables for Schuco 120W

- Compatible with all hyfrecator electrodes
- Additional electrodes are available upon request.

CAU210	Coag ball 3mm electrode shaft length 5cm, box of 40		£117.05
CAU211	Switching handle with 3m cable (no electrode), box of 50		£172.54

CAU216	Paediatric unipolar ground pads, box of 50		£340.00
CAU217	Fine wire cut electrode 0.1mm, box of 36	1	£63.10
CAU218	Bi-polar forceps with integral cable, box of 20	2	£385.75

Coa-Comp M - Automatic Bipolar Electro Coagulator

Lightweight, cost-effective, and ideal for any surgical environment demanding fast and precise bipolar coagulation.

The Coa-Comp M, is a unique low powered automatic bipolar coagulator. Its small size and light weight make it perfect for coagulation in small GP Surgery's, Minor Ops room or at a larger site where it can be moved quickly and efficiently between several operating rooms. It takes less than five seconds from when the unit is plugged in to be ready for use making it ideal for rapid reaction to unexpected bleeding.

Bipolar coagulation starts when the blood vessel is grasped between the forceps and ceases automatically when coagulation is achieved. The Coa-Comp M lets you know by emitting a tone to the user, coagulation has already been halted, preventing charring of the tissue and damage to the forceps.

This is achieved by the computerised monitoring system continuously analyzing variations in tissue impedance during coagulation. The generator stops producing bipolar energy when specific impedance parameters are met.

As a result, the Coa-Comp M stops coagulation before the tissue is over-coagulated, therefore enhancing the non-stick characteristics of bipolar instruments.

With a pair of bipolar scissors connected to the Coa-Comp M the automatic operation can be used for haemostasis right between the cutting edges.

The Coa-Comp M gives the best to the patient and the end user. The intelligent coagulation system gives an improved aesthetic result for the patient and extends the life of the end users equipment.

- Small, light and quick to deploy, perfect for rapid reaction bleeding
- Computer controlled coagulation prevents charring of tissue
- Improved aesthetic results
- Enhances non-stick characteristics of equipment, saving you money
- Dimensions: 155 x 200 x100 mm (WxDxH) excl. handle. Handle is 50 mm high
- Weight: 2.6 kg
- CE-marked (CE0470)
- Coa-Comp M is built to meet IEC 60601-1 and IEC 60601-2-2

For special discounts and leasing options please contact our sales team.

Hyfrecator® 2000

- Number 1 choice for skin surgery by GP's and dermatoligists worlwide
- Provides coagulation, desiccation and fulguration for many applications: dermatology (warts, spider veins, skin tags, moles and epilation); gynaecology, urology, vasectomy, plastic surgery, dental and ophthalmology
- The Hyfrecator is more versatile and can be used to treat more conditions than any type of electrocautery or cryotherapy equipment
- Other applications include: Chiropody, Maxillofacial, GU Medicine and Veterinary
- Fingertip remote up / down power control
- Digital display
- Memory stores up to 3 power settings with maximum power 35w
- Digital one-tenth incremental control in the critical 0-10 watt range
- Complete with switching handle and 50 disposable sharp and blunt electrolase tips, dispersive patient plate, sample sterile and non sterile sheaths, operating manual, wall bracket, and training video
- Optional high quality single use, sterile, bi-polar forceps with integral cable, 110mm in length with 0.5mm tip includes 3m cable
- Supplied with dispersive patient plate

Hyfrecator® 2000 Service Pack

To provide compliance with Medical Device Guidelines and to ensure that your unit continues to provide you with the accuracy and reliability that you expect. It is essential that your Hyfrecator undergoes an annual service and safety test to the manufacturer's guidelines and standards, using approved spares and calibration equipment.

Upon satisfactory completion each Hyfrecator is returned with a current test and calibration certificate.

Each returned unit undergoes the following:

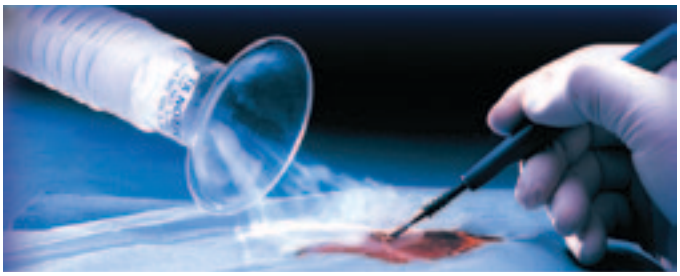
- UK collection and return
- Visual inspection
- Electrical safety test
- Equipment test covering; delivered output, hand piece, patient plate, footswitch and bi-polar cable

CAU038	Service Package	£193.85

Acu-Evac IE II
Surgical Smoke Evacuator

Smoke Evacuator
shown with Hyfrector 2000

Advanced, patented, high efficiency filtration system for eliminating surgical smoke plume which may contain hazardous bio-aerosols, live and dead cellular matter (including blood fragments and viruses). Surgical smoke plume can also be carcinogenic, which is another key reason to invest in the Acu-Evac to protect patients and staff.



- Can be used with the Hyfrecator 2000 or Schuco 120W - needs special mounting bracket CAU220
- Eliminates unpleasant odours associated with electro surgery or cautery
- Powerful, portable, easily stored
- Boom arm allows single operator use, with both hands free to perform skin surgery
- Complete system comprises one of each:- machine, Main Filter, TX Nozzle, tubing, Footswitch, Mobile stand, Boom arm

TX Nozzle
Disposable preliminary filter fitted to the directional end of the tubing and placed nearest the point of surgical contact. Intended for short procedures up to 15 minutes in duration.

- Single use to reduce possible cross-contamination
- Directional control means convenience for the operator
- Captures 30% more surgical smoke plume due to patented "trumpet" design
- Schuco 120W Smoke Package available on request
- Hyfrecator Smoke Package available on request

Main Filter for Acu-Evac
A charcoal/odour filter and an ULPA (Ultra Low Penetration Air) filter - rated at 99.99997% efficiency on particles 0.01 and 0.12 micron MPPS. Each filter has been tested and certified to be free of leaks at time of shipment. Filter life: 16 Hours.

- Gases and vapours are absorbed by activated charcoal
- Sealed unit retains contaminated particles
- Easily and safely removed for replacement and disposal

For special discounts and leasing options please contact our sales team.

CAU250	Acu-Evac IE II Surgical Smoke Evacuator	£2033.06
CAU252	TX Nozzle for Acu-Evac, pack of 25	£106.87
CAU220	Acu-Evac Mounting Bracket - for Schuco 120W	£188.64

Liquid Nitrogen Storage Dewars and Withdrawal Device

- Vessels for the safe storage of liquid nitrogen over a prolonged period
- Full range of specifications to suit individual requirements
- **A Withdrawal Device is supplied with every Dewar as standard. The withdrawal device allows the safe dispensing of liquid nitrogen.**
- All dewars include dust cap
- Optional Roller Base for 20 litre and above dewar's. Note: Dewars should not be stored on concrete or direct on to floors to avoid corrosion or rusting, the larger dewars can be heavy and the roller base is ideal for easy movement

All Dewars supplied with a Withdrawal Device

CRY140	Storage Dewar, 5 L capacity, holding time 4-5 weeks, Weight: empty 4kg, full 8kg, with Withdrawal Tube. Dimensions 462x222mm hxd (1)	£720.53
CRY141	Storage Dewar, 10 L capacity, holding time 6-8 weeks, Weight: empty 6kg, full 14kg, with Withdrawal Tube. Dimensions 546x260mm hxd (2)	£772.69
CRY142	Storage Dewar, 20 L capacity, holding time 300 days, Weight: empty 9kg, full 26kg, with Withdrawal Tube. Dimensions 627x368mm hxd (3)	£955.39
CRY143	Storage Dewar, 30 L capacity, holding time 14-16 weeks, Weight: empty 12kg, full 38kg, with Withdrawal Device. Dimensions 611x432mm hxd (4)	£1214.46
CRY144	Storage Dewar, 50 L capacity, holding time 14-17 weeks, Weight: empty 16kg, full 56kg, with Withdrawal Device. Dimensions 779x432mm hxd (5)	£1520.00

Accessories

CRY146	Roller Base for 20/30/50 L Dewar (6)	£255.37
CRY147	Protective goggles to be worn when withdrawing liquid nitrogen	£19.73
CRY14801	Protective Cryo Gloves to be worn when withdrawing liquid nitrogen, size small 8 (7)	£116.68
CRY14802	Protective Cryo Gloves to be worn when withdrawing liquid nitrogen, size medium 9	£116.68
CRY14803	Protective Cryo Gloves to be worn when withdrawing liquid nitrogen, size large 10	£116.68

CRY-AC Cryosurgery Flasks

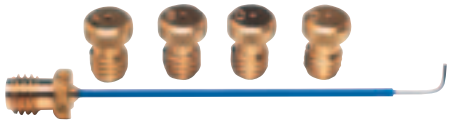
- Easily refillable hand held systems which use liquid nitrogen
- Providing a very safe and effective low cost, non invasive treatment for many benign lesions and requiring no anaesthetic
- Very quick treatment, usually less traumatic for the patients than excision, with little or no scaring
- Uses a substance which is non toxic and non-flammable to provide rapid freezing at minus 196° C via spray delivery or a direct contact probe using KY jelly
- Systems are fully portable and easy to use with a carry case (available as an optional extra)
- Available with 300ml or 500ml stainless steel flask with adequate static holding time to allow for a full day's use
- Each Flask is supplied with
  - 1 x Aperture A (0.04")
  - 1 x Aperture B (0.031")
  - 2 x Aperture C (0.022")
  - 1 x Aperture D (0.016")
  - 1 x 20g Bent Spay

3 YEARS GUARANTEE

CRY-AC 300ml Flask
- Height: 215mm
- Weight: Full 618g, Empty 412g
- Static holding time: 10 to 12 hours

CRY-AC 500ml Flask
- Height: 280mm
- Weight: Full 846g, Empty 466g
- Static holding time: 20 to 24 hours

Brymill CryoTote
- Holds either size Flask
- Convenient shoulder strap for hands free carrying
- Durable protective canvas construction
- Accessory pocket inside



CRY002	CRY-AC 300ml Flask	1	£601.46
CRY001	CRY-AC 500ml Flask	2	£601.46

Schuco CryoSpray 350ml

- The Schuco CryoSpray 350ml offers the ultimate liquid nitrogen spray technology, with maximum ease of use, cost effectiveness and safety
- The ergonomic design offers easy grip for low fatigue and complete control when administering treatments. The stainless steel vacuum container feels comfortable in the hand with the operating fingers falling naturally on the ergonomic trigger
- The 350ml canister holds the appropriate amount of liquid nitrogen for an average cryosurgery clinic, cutting down on wastage compared to larger canisters on the market
- The Schuco CryoSpray comes with a set of five brass spray tips – four directional cone shaped tips, with varying orifice, for accurate visual aiming during treatment and one bent spray extension are supplied with the machined tip holder
- The top third of the device is fully insulated to protect the user and allow them to concentrate on the procedure
- Sturdy stabilizing base keeps the Schuco CryoSpray from tipping for added safety
- Custom-fitted sturdy canvas carrying case with foam moulding inner storage compartment for convenient, safe storage and transport
- 5 year warranty
- Dimensions: 24cmx9cmx9cm (holds 350ml of liquid nitrogen)
- Pack Comprises:
  - 1 x 350ml Schuco CryoSpray,
  - 1 x 0.1mm cone tip
  - 1 x 0.2mm cone tip
  - 1 x 0.3mm cone tip
  - 1 x 0.4mm cone tip
  - 1 x Bent Spray extension tip
  - 1 x Nozzle Extension
  - 1 x Tip holder
  - 1 x Black canvas carry case

5 YEARS GUARANTEE

CRY316		£569.97

CryoSuccess

A simple and effective handheld Cryotherapy device for accurate treatment of skin lesions making it ideal for general practice, dermatology, podiatry and minor surgery applications.

CryoSuccess incorporates a new improved safety design which allows easy on/off fitting of the cartridge.

The device can be kept in a drawer ready for use at any time. The cartridge can be removed at any time - for longer term storage or transport - and then rapidly reconnected.

The tip is made from a soda clear glass capillary with a diameter of 80µm.

To apply the cryogenic liquid gas, the dispenser tip is touched against the skin surface so that the escaping liquid gas directly touches the surface before a gaseous phase transition takes place.

The liquid gas travels at a mean speed of 40m/s in a phase stable state (gaseous state), enabling cells to be destroyed accurately and safely. For example a target area with a diameter of 10mm and a depth of 3mm can be frozen to -40° within 12 seconds which will ultimately result in absolute cell destruction.

5

- Pack Contains: 1 x CryoSuccess (with standard 1mm application tip and protective cap), 1 x cartridge, 1 x pin, 1 x instructions for use, all contained in an ABS protective case
- Simple pencil type grip for easy use and very accurate application
- Freezes to -89ºC and to a depth of 3mm
- Level of cold generated adjusted by the rate at which the button is depressed
- Using Nitrous Oxide cartridges avoids all of the storage and transport problems associated with liquid nitrogen. Also ideal for home visits, nursing homes, etc.

Replacement Cartridge

- Long life 23.5g cartridge for use with CryoSuccess
- Can also be used with CryoAlfa devices (modification required – the CryoAlfa must be returned to Schuco. Please enquire for further details)
- 50% increase in gas volume from 16g to 23.5g (compared to old cartridge)
- In built safety valve
- Fast and safe connection

Tips

- Tips are made from a soda clear glass capillary, brass head and glass tip as a one piece design
- Optional 80µm diameter 1mm tip, 4mm tip for dermatology applications, or 13cm tip used for gynaecological applications such as condylomas
- Includes protective plastic cap, pack of 1

CRY132	CryoSuccess	1	£605.59

Askina® Skin Freeze

B|BRAUN
SHARING EXPERTISE

- Portable cryosurgical system from B|Braun
- Wart and skin tag remover
- New simple application technique
- Very low cost per treatment
- Available in 2mm and 5mm applications
- 50 Applicators per pack

CRY171	2mm Applicator	£60.00
CRY170	5mm Applicator	£60.00

Polymedical Dermo Jet Injector

Schuco

The Polymedical model allows for rapid change of sterilisable distance pieces between patients.

- Injects without a needle, without pain and without contact
- Use of a needle free injector means a patient will not see a needle
- Intradermal injections of 0.1ml per injection are achieved by a high velocity liquid jet which penetrates the surface membrane to a depth of 2-5mm and produces a weal of up to 6mm diameter without contact with the injection site
- Relatively painless for the patient
- Cost saving in terms of needles, syringes and medication
- Dermatology
- Vasectomy
- Podiatry
- Local anaesthetics

DER162	Dermo Jet Polymedical Model	£605.59
DER163	Distance piece for Polymedical Dermo Jet x1	£30.50

Surgical Skin Marking Pens

Schuco

Applications

Pre-operative skin marking in:

- Minor Surgery
- Dermatology
- Radiotherapy
- Plastic, Eye, Neuro, Vascular and General Surgery

Features

- Non toxic gentian violet ink
- Provides sharp, distinct markings that remain visible for several days but can easily be removed with soap and water, ethyl alcohol or acetone
- Bullet point tip design allows thin or broad line
- Supplied sterile in individual peel packs of 10

SUR240		£7.41

Gem II Ring Cutter

- Single hand touch button operation
- Thin flexible finger guard reducing patient trauma when inserted under a tightly fitting ring
- Will cut any metal even as hard as chrome plated steel up to 20mm wide and 6mm deep, in seconds
- Supplied with 1 x diamond and 2 x silicone carbide cutting discs, disc replacement tool in presentation case
- Batteries not supplied, requires 4 x AAA
- Rechargeable version supplied with charger and rechargeable batteries
- Supplied with DVD on ring cutting techniques

SUR353	Ring Cutter	£110.97
SUR354	Ring Cutter Rechargeable	£136.80
DIS350	Duracell AAA Size Batteries, pack of 4	£3.04
SUR355	Replacement Diamond Cutting Disc	£32.16
SUR356	Replacement Carbide Cutting Disc, pack of 6	£32.19

Ring Cutter

- Supplied with instructional DVD

SUR522		£28.90

Gem II Ring Spreader

- Spring loaded jaws
- Serrated tips for better grip
- Supplied with instructional DVD

SUR351		£10.74

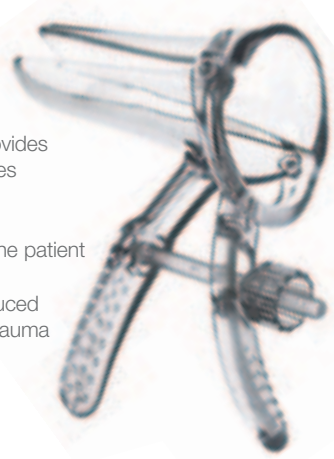
Comfispec Vaginal Speculum with lock

Designed for the discerning medical professional, ComfiSpec® is a high-quality, reliable disposable vaginal speculum which offers great value for money and predictable performance.

Utilised in gynaecological procedures, such as cervical smear tests and IUCD fittings, the ComfiSpec® disposable speculum is the primary speculum for primary care.



- Independently tested as the strongest disposable speculum in the market
- Optimum 38 degree opening angle provides best access for gynaecology procedures
- Textured and frosted handle provides superior grip and control
- Predictable fail safe feature is outside the patient
- Reduced danger of skin trapping
- Fast acting locking mechanism for reduced procedure durations and less patient trauma
- Silent operation
- Professional medical grade plastic

Wallach Endocell Endometrial Sampler

- Replaces D and C, simple non-traumatic procedure
- Insert Endocell through the cervix, pull the plunger, move the sampler back and forth to produce a good endometrial sample
- Individually wrapped for assured sterility
- Box of 35

SINGLE USE

DIS236		£147.25

Instraspec Vaginal Speculum

High quality, reliable, sterile disposable vaginal speculum that offers healthcare professionals complete peace of mind when performing a pelvic examination or gynaecological procedure that requires the use of a speculum, often referred to as a cusco. The product is technologically advanced yet offers exceptional value for money. Made from an advanced polymer, it is unbreakable in normal use, offering patients and clinicians complete peace of mind that the anxiety and trauma experienced if a product breaks will not occur. Instraspec® therefore combines the safety benefits of a metal speculum with the crystal clear transparency of plastic for maximum visibility, permitting the vaginal wall to be examined during any procedure.

Design Comfort
Instraspec® has a smooth, rounded design. The danger of skin trapping is reduced when closing the device, whilst a silent and rapid locking action contributes to minimal procedure duration. All culminate in improved patient comfort. Clinicians also retain complete control thanks to the smooth action mechanism and ergonomically designed textured handles.

Ease of Use and Convenience
Designed thoughtfully, even down to the convenient, easy to use case. To open the case, simply tear off the perforated entry flap. This reveals the flip open dispensing tray which makes selection and dispensing simple and rapid. The individually packed specula are colour coded by size, matching a large and prominent label on the front of the case, further simplifying selection and use.

Comfisound uterine sound

Single-use uterine sound boasting a series of unique features that make this latex-free, polyethylene device a market leader. ComfiSound® disposable uterine sounds have been designed with a rubber cursor that allows the clinician to accurately measure the length of the uterus. The uterine sound's flexibility ensures the shape of the uterus can be determined accurately, plus its textured handle makes the sound easy to hold and manoeuvre.

Features:

- Moveable rubber cursor and centimetre markings for quick, accurate measurement of the uterus
- Highly flexible Sound to adjust to the shape of the uterus
- Textured handle provides a strong grip for complete confidence when using the sound
- Easy to hold and manoeuvre
- Latex-Free
- Sterile single-use eliminates the risk of cross contamination

EpiGlu Skin Adhesive

- Pain free
- Single patient use
- Holds wound edges even under tension e.g. around joint areas
- The first layer polymerizes within seconds then multiple layers close and protect the wound from infection
- Easy to apply
- Results in almost no keloid scaring
- Patients can resume daily personal
- hygiene (washing / showering)
- No anaesthetic required
- Pack of 10

SUT300		£59.67

Leukostrips

- Wound closure strips made of 100% polyamide material coated with a hypoallergenic adhesive which allows almost pain free closure of the wound
- Elastic polyamide textile
- Shear-free wound edge adaptation
- Permeable to moisture and air
- Hypoallergenic adhesive
- Sterile and individually sealed
- Pack of 10 x 3 strips
- 6.4 x 76mm

DRE035		£9.30

Skin Staple Remover SR-1

SINGLE USE

- Suitable for use with most brands of skin staples
- Sterile

DIS341		£3.79

Skin Stapler

HENRY SCHEIN SEAL OF EXCELLENCE

SINGLE USE

- Stapler can be used in various surgical procedures for routine skin closure
- High quality products which guarantee a perfect wound closure
- The ergonomically designed handle provides easy handling and saves time
- Sterile
- 6.4 x 4mm

DIS342		£6.75

Skin Staple Remover

SINGLE USE

HENRY SCHEIN SEAL OF EXCELLENCE

- Staple Remover can be used in various surgical procedures for routine skin closure

HENRY SCHEIN®
MEDICAL

check out our dedicated
Henry Schein section at
the start of our catalogue

our own brand range

Henry Schein Medical has developed a comprehensive range of branded everyday medical items that offers both excellent value and exceptional quality to our customers. This is why we are always working at developing new products and improving our already existing lines.

Each Henry Schein brand line is tried and tested and only when it meets our high standard of excellence is it made available to our customers.
